SPECIMEN OF EARTAG USED FOR IDENTIFICATION OF BOVINE ANIMALS

According to the Order of the Minister of Agriculture (05 10 1999 No. 380) the ear tags used for the identification of bovine animals:

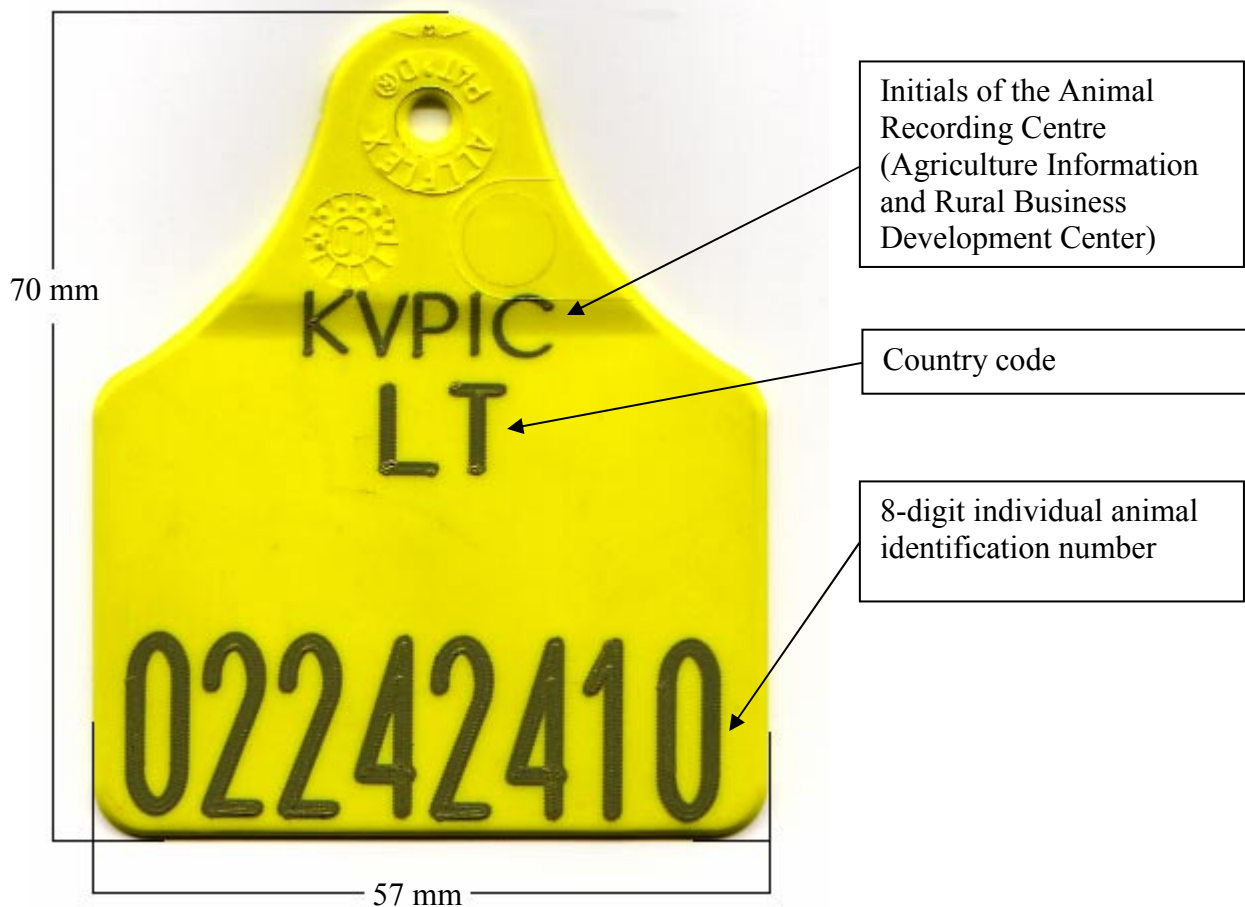

1. Shall be manufactured in an establishment the quality system of which is certified according to the ISO 9000 standard by the accredited quality system certification institution and shall be made of a flexible, tamper-proof material yellow in colour and shall not be re-usable. Laser-made inscriptions of the ear tags shall be easy to read throughout the animal's lifetime.

2. Shall consist of two parts with the following information: initials of the name of the Animal Recording Centre - "KVPIC" (which corresponds to Agriculture Information and Rural Business Development Centre), the country code-LT, a bar code and eight numeric characters, from 01010001 to 99999999, enabling an individual identification of the animals. The type of the bar code shall be 128c type consisting of the ISO identification code for Lithuania – 0440 and eight-digit individual number of the animal. The bar code shall be of medium density, adequate contrast, the height of the bars shall be at least 7 mm.

Female part:
